TECHNICAL FIELD

5

The present invention relates generally to a disposable toothbrush.

[Tip: Describe the art or technology to which the invention relates.]

10

BACKGROUND ART

15

One type of known disposable toothbrush includes a toothbrush which comprises of a brush head to support the bristles of the brush and a hollow handle for toothpaste. During its operation...

*[Tips: 1) Describe any prior art which can be useful for the understanding of the invention.
2) Discuss the disadvantages and problems with the prior art.
3) The document no. of the prior art e.g. Patent No. US-A-.....can be included.]*

20

25

SUMMARY OF THE INVENTION

According to the present invention, there is provided a toothbrush for brushing teeth comprising a brush head having a plurality of bristles and...

30

*[Tips: 1) Explain the solution by the invention on the problem mentioned in the "Background Art".
2) State the advantageous effects of the invention compared to the prior art.]*

35

40

BRIEF DESCRIPTION OF THE DRAWING

For a better understanding of the nature and objects of the invention,

5 reference should be made to the following

Figure 1 shows an exploded view of the preferred embodiment ...

Figure 2 shows a side view of the ...

Figure 3 shows a side view of ...

10 *[Tip: Briefly describe each figure in the drawings in one short sentence.]*

DETAILED DESCRIPTION OF PREFERRED EMBODIMENT

15

1. Describe the technical features of the preferred embodiment in a great detail and the interconnection with each other.

- *If the invention has a few embodiments, choose the most preferred or most basic embodiment to be the first embodiment.*
- 20 • *Start by describing the main parts of the first embodiment i.e. in this case the main parts are a brush head 13 and an elongated cartridge 23 and explain how they're interconnected.*
- *Then continue by describing each main part and all of the sub or component parts in detail e.g. for explaining the first part a brush head 13, the second part the elongated*
- 25 *cartridge 23 and a closed valve 33, 35 are being described.*
- *Be sure to detail all the interconnections or mountings between parts.*

2. How it operates.

30

- *Explain the operation or the function of the first embodiment in extensive detail after describing the technical feature of the first embodiment.*
- *In doing this, refer to each part by its name and reference numeral and be sure to include the working or function of every part.*
- *At the end of this part, emphasize the advantages of your invention*

35

40

3. Alternative embodiment.

- *Continue describing each alternative embodiment after fully describing the technical feature and operations of the first embodiment.]*

5

[Tips: Describe embodiment(s) of the invention preferably by referring to the drawings (if any). The embodiment must be described in terms of its technical features (i.e. the physical element of the embodiment) and also on how it operates.

NOTE: MEASURES, TERMINOLOGY AND SIGNS

- *Units of weight, measures and density must be expressed in metric system.*
- 35 ▪ *Temperature must be expressed in degrees Celsius.*
- *Heat, energy, light, sound, magnetism, mathematical formulae & electrical units may use the rules of international practice e.g. decibel for measuring sound.*
- *Only technical terms, signs and symbols which are generally accepted in the field in question should be used e.g. piston in the field of internal combustion engine.*
- 40 ▪ *The terminology and signs shall be consistent throughout the specification.*

CLAIMS:

1. A toothbrush (11) for brushing teeth comprising:

a brush head (13);

5 an elongated cartridge (23) ...

Wherein/characterized by.....

[Tip: Independent claim does not refer to any other claim i.e. it stands alone.]

2. The toothbrush (11) as claimed in claim 1, wherein ...

10 *[Tip: Dependent claim 2 depends on claim 1.]*

3. The toothbrush (11) as claimed in claim 2, wherein ...

[Tip: Dependent claim 3 depends on claim 2.]

15 4. The toothbrush (11) as claimed in any one of the preceding claims,
whereby...

[Tip: Multi dependent claim 4 depends on any one of claims 1, 2 and 3.]

ABSTRACT
INSERT YOUR TITLE HERE

5 The present invention relates generally to a disposable toothbrush and more particularly to a disposable toothbrush with...

[Tips: An abstract is a summary of the invention.

1) Indicate the technical field of the invention.

2) Explain the technical problem in the prior art.

10 *3) Describe the solution of that problem through the invention.*

4) Explain the principal use of the invention.]

(Most illustrative figure: Fig. 1)

15 *[Tips: The abstract shall be accompanied by the most relevant drawing.]*

20

25

30

NOTE:

- 35
- *Not more than 150 words.*
 - *Each technical feature must be followed by the reference numeral used in the drawing and placed between parentheses.*
 - *Must not contain statements on the alleged merits or value of the invention or on its speculative application e.g. the mop is high in quality and guaranteed to last for a very*
- 40
- *long time.*
 - *It must constitute efficient information for the purposes of prior art searching.*
